

GLOBAL ORPHAN FOUNDATION

caring for the world's most vulnerable children

African Farming Advisor

Organization

Global Orphan Foundation is an Indianapolis based non-profit with a global mission - to advocate on behalf of orphaned and vulnerable children worldwide and respond with action. We have witnessed firsthand the struggle to meet the basic needs of orphaned children in third-world and developing countries and are committed to easing that burden. We believe that all children deserve proper nutrition, access to healthcare, and educational opportunities.

Bolingo Village

Located in Democratic Republic of Congo, Bolingo Village is the signature project of GOF. By employing widowed women as licensed foster moms and building families with orphaned children, we are leveling the playing field for orphaned children in Congo and affording them the emotional, physical, and spiritual care that they need to thrive. Our sustainable children's care village goes beyond meeting basic needs by providing access to education, a clinic for consistent medical care, a farm for balanced nutrition, clean running water, a loving foster family, and space to run, play and be kids. In short, Bolingo Village is a community that allows for a robust and abundant childhood with a bright future.

Responsibilities

GOF is looking for a farming expert that can work with our staff, board, and interns to review and perfect our 5-year farm plan in addition to help troubleshoot issues and questions as they arise.

Specifically, we are interested in:

- Crop cycling and rotation based on soil samples
- Dairy Goats
- Egg-laying chickens

Requirements:

- Willingness to respond to US staff and board members questions within 48 hours.
- Agree to review plans developed by an intern and DRC staff to point out issues or highlight missed opportunities.

If you're interested in learning more about this opportunity, please reach out via email at info@globalorphan.org
