

GLOBAL ORPHAN FOUNDATION

caring for the world's most vulnerable children

Internship Coordinator Volunteer

Bolingo Village

Located in Democratic Republic of Congo, Bolingo Village is the signature project of [Global Orphan Foundation](#). By employing widowed women as licensed foster moms and building families with orphaned children, we are leveling the playing field for orphaned children in Congo and affording them the emotional, physical, and spiritual care that they need to thrive. Our sustainable children's care village goes beyond meeting basic needs by providing access to education, a clinic for consistent medical care, a farm for balanced nutrition, clean running water, a loving foster family, and space to run, play and be kids. In short, Bolingo Village is a community that allows for a robust and abundant childhood with a bright future.

Responsibilities

GOF is searching for an individual to help us get the word out about our internship program! This volunteer would help connect GOF to colleges and universities and other organizations that may be willing to spread the word about our internship opportunities.

This is an opportunity to build a volunteer role that fits your skills and contacts. You can pick and choose which of the following play to your strengths:

- help spread the word
- help interview potential interns
- help onboard and train interns
- help manage interns

Next Steps:

If this sounds like a volunteer position you're interested in, please reach out via email at info@globalorphan.org.
